To whom it may concern,

ASSA ABLOY is the largest global supplier of intelligent locks and security solutions. Its products account for more than one in ten of all lock and security installations worldwide.

Assa Abloy was formed in 1994 when ASSA AB was detached from Swedish security firm Securitas AB. Shortly thereafter, the Finnish high-security lock manufacturer Abloy Oy (a subsidiary of the Finnish company Wärtsilä) was acquired. The company was introduced to the Stockholm stock exchange later the same year. Assa Abloy has since made over 150 acquisitions.

Securitron Magnalock Corporation is one of the leading manufacturers of magnetic locks and electromechanical exit devices in the US. Securitron was purchased and consolidated by Assa Abloy in 1998.

In 1999, Hanchett Entry Systems was acquired by Assa Abloy through the purchase of effeff, their owners at the time. Hanchett Entry Systems is committed to being the leading provider of innovative electromechanical locking solutions and support, creating safety, security and peace of mind for our customers, while providing an environment that enables employees to contribute and fulfill their potential.

Sincerely,

Andrew Wilding
