

March 17, 2014
Subject: Product Portion Equality Declaration

To whom it may concern,

The below listed radio technology supported asset locking devices for which FCC and IC approval is applied incorporate identical 2.4GHz 802.15.4 (Zigbee) and 13.56MHz / 125kHz RFID radio portions, including it's integral antenna:

<i>description</i>	<i>FCC ID</i>	<i>IC ID / model name</i>	<i>RFID frequency 13.56MHz or 125kHz (*1)</i>	<i>applicant (*2)</i>
Aperio Cabinet Lock	VC3-K100622SE	7160A-K100622SE / K100-622-SE	13.56MHz	Hanchett Entry Systems, Inc.
Aperio Server Lock	VC3-KS100640SE	7160A-KS100640SE / KS100-640-SE		Hanchett Entry Systems, Inc.
Aperio Reader	KSF-R1001SE	11546A-R1001SE / R100-1-SE		Securitron Magnalock Corp.
Aperio Cabinet Lock	VC3-K100622PA	7160A-K100622PA / K100-622-PA	125kHz	Hanchett Entry Systems, Inc.
Aperio Server Lock	VC3-KS100640PA	7160A-KS100640PA / KS100-640-PA		Hanchett Entry Systems, Inc.
Aperio Reader	KSF-R1001PA	11546A- R1001PA / R100-1-PA		Securitron Magnalock Corp.

**1: The used identical RFID radio chip is fix programmed to operate at 13.56MHz in the "high frequency" models and at 125kHz in the "low frequency" models.*

**2: Hanchett Entry Systems, Inc. and Securitron Magnalock Corp. are formal subsidiaries of Assa Abloy, but having it's own dedicated FCC and IC company number (see attestation regarding company names which is part of the filed exhibits).*

Based on equality of the radio portions in all the models only the radiated part of the relevant testing from FCC 15.247, 15.225, 15.205/15.209 and IC RSS-210, RSS-GEN, respectively, has been applied to each of the above listed models while the conducted tests portion for the Zigbee and the RFID radio has been performed with the models R100-1-SE and R100-1-PA only, and is leveraged for the other models.

The radiated test reports provide the references to the complementary conducted test reports where testing is leveraged.

Sincerely,

Josh Peabody

ASSA ABLOY

March 14, 2014

To whom it may concern,

ASSA ABLOY is the largest global supplier of intelligent locks and security solutions. Its products account for more than one in ten of all lock and security installations worldwide.

Assa Abloy was formed in 1994 when ASSA AB was detached from Swedish security firm Securitas AB. Shortly thereafter, the Finnish high-security lock manufacturer Abloy Oy (a subsidiary of the Finnish company Wärtsilä) was acquired. The company was introduced to the Stockholm stock exchange later the same year. Assa Abloy has since made over 150 acquisitions.

Securitron Magnalock Corporation is one of the leading manufacturers of magnetic locks and electromechanical exit devices in the US. Securitron was purchased and consolidated by Assa Abloy in 1998.

In 1999, Hanchett Entry Systems was acquired by Assa Abloy through the purchase of effect, their owners at the time. Hanchett Entry Systems is committed to being the leading provider of innovative electromechanical locking solutions and support, creating safety, security and peace of mind for our customers, while providing an environment that enables employees to contribute and fulfill their potential.

Sincerely,

Josh Peabody
